HOW TO MAKE A BALLOON BUMBLEBEE

1. Just like with the flower, you’ll start by burping the balloon. “Burping” is when you fold the balloon in half and squeeze it to push some air into the tail.

2. After that double knot the tail and the nozzle together to make the “toilet seat”.

3. Now you’ll Shoot the bow and arrow, and twist in the middle to make the bee’s wings.

4. Take Bee-body, Twist and pinch the neck, then tie the wings around the head to hold them in place.

5. Add art with sharpie and you’re done!
