HOW TO MAKE A CRAZY TWISTY BALLOON HAT

1. Start by inflating 2 balloons. Next you’ll squish the 2 “caterpillars” together with the nozzle at the top. Twist the heads together to hold the balloons together.

2. Measure your head and twist the balloons together about halfway down. Make sure to leave enough room in the middle for your head to fit!

3. Now you’ll tie an “invisible knot.” Pull one balloon through the loop to hold the balloons together at that end.

4. Twist the remaining sections of the balloons together like a braid and tie the ends just like you did with the “heads” in the very beginning.

5. You can stop here if you’d like, but this step shows you how to finish off the hat with the Mowhawk! Take the braided end and twist each set of “heads” together.
